RE: Identification Number: C00034785
ACPAC July 20 FEC Report

Dear Ms. Broomhead:

This letter is to inform you that there will be discrepancies between the information reported to the FEC in ACPAC's June FEC report and the report filed for July. This is due to the fact ACPAC discovered errors in the ACPAC FEC reports filed in 2010 and is in the process of correcting those errors and filing amended reports.

It is our intent to have the amended reports filed within the next few weeks. As we amend the 2010 reports, it is impacting the information reported in current FEC reports. As such, until all reports are amended, the information in the current FEC report will not be accurate.

Based on a conversation between you and our legal counsel, we are filing ACPAC's July FEC report and including this cover letter explaining the issue at hand. Contrary to the information reported, ACPAC maintains a positive bank balance of \$109,557.36 as of June 30, 2011.

If you have questions about this information or the July 2011 ACPAC FEC report, please feel free to contact me.

Sincerely,

Valerie Hayes, CAE
General Counsel
